

28 JAN 1982

MEMORANDUM FOR: ALL SEAP TASK FORCE MEMBERS

FROM:

Chief, Procurement Management Staff  
Office of Logistics

STAT

SUBJECT: Task Force Wrap-up

1. We have now spent more than three months and have had seven meetings of our group, plus various contacts and meetings with external bodies in attempting to complete the task levied upon us by the Director of Logistics in his memorandum, dated 24 August 1981. The results of our efforts are included in the attached memorandum to the DCI which is distributed herewith for your final review. All attachments to the memorandum are not included since each of you has had input or a chance to review them as we have moved along. You also have copies of them in your file. The only attachment which you may not have seen is  final edition, and this document is attached for your review.

STAT

2. A great deal of effort has gone into typing and editing the attached memorandum, and wordsmithing, nitpicking, or other editorial comments are not solicited. I would like to present the paper to the DCI as representative of the unanimous task force; however, if any task force member has a serious reservation, I am willing to note his dissenting opinion. The dissenting opinion must be supported by a memorandum to myself and will be included with the presentation to the DCI.

3. At our next meeting, Tuesday, 2 February, 10:00 a.m., Room 2G31,  we can celebrate completion of our task, and any dissenting opinions, with supporting memoranda, must be presented at that time.
